

Sprint 2 Report

Decentralized Internet

The Distributors

Tuesday, May 9

Start doing:

- Planning meetings more in advance
- More focus on user stories/functionality than tech issues
- Make better use of the scrum board
- Give more frequent updates in the group chat

Stop doing:

- Having meetings the day they're planned
- Infrequent pushes to shared git repo
- Separate branches for each UI feature

Keep doing:

- Tasks were evenly distributed amongst engineers
- Asking questions quickly when spikes are hit

Tasks Finished:

- Gossip protocol for eventual consistency
- File saving protocol
- Basic search page
- Peer to Peer research
- UI for Editing files

Tasks Incomplete:

- Links between files
- UI for viewing rendered files
- Testing suite

5/8 tasks completed
